

ScheduleAnywhere is the #1 online employee scheduling software from Atlas Business Solutions, the leader in employee scheduling software for over 15 years. Find out why over 70,000 customers rely on our scheduling software daily.

*"ScheduleAnywhere helps us fill any coverage gaps ahead of time, which helps control our overtime costs. It has dramatically reduced the amount of time it takes our managers to create and maintain schedules."*

Heather Clemons  
Clinical Staffing  
Kaiser Permanente  
Santa Rosa Medical Center

*"Before ScheduleAnywhere, I had daily challenges of staff being double scheduled and it was difficult to find an individual's schedule amongst my many spreadsheets. In ScheduleAnywhere, I can pick any one schedule and know what department the employees are in. Since I can view the full schedule, there is no way to double book someone again!"*

Ginny Carpenter  
Bethany Retirement Living

*"The accuracy, huge time savings, user friendliness, and effectiveness of ScheduleAnywhere have been a wonderful asset to our front line managers for planning their available staff and workload."*

Thelma Manning  
Canadian Pacific Railway

## Fast and Easy Online Scheduling

Scheduling your employees online is easy with ScheduleAnywhere. Simply list your employees, define your shifts, and start scheduling. It's really that simple!

## See Schedule Details or the "Big Picture"

View your work schedules in one of five different formats. Choose a one-day view, a 7-day view, a 14-day view, a 28-day view, or a 42-day view. To view a different scheduling period, press the next or previous buttons, or enter the date you wish to view and press the Go button.

## Make Sure You Have Proper Coverage

Enter staffing requirements by department, position, or shift and instantly see whether you have too few or too many employees or hours scheduled.

## Save Time

Schedule multiple employees in one easy step. Copy schedules or rotations so you don't have to enter redundant or repeating work schedules. Post messages for other managers that automatically appear when the manager logs into ScheduleAnywhere.

## Control Overtime

Avoid scheduling unnecessary overtime. From each schedule view, you can see how many hours an employee is scheduled. By displaying total hours on-screen, you will be able to better manage your employees' work schedules and reduce your labor expense.

## Build Custom Filters

View specific information by applying a filter to your current schedule. For example, if you are viewing all employees, but just want to see who has vacation time scheduled, select the "Vacation" filter to see who will be out.

## Employee Skill Tracking

Track employee attributes, such as skills, training, or certifications. Setup coverage watches or filters to determine the appropriate personnel to be scheduled.

## Create Schedules by Location, Department or Position

Create an unlimited number of work schedules. If an employee appears on more than one schedule (i.e. works in multiple locations or departments), you will see all schedule information for the employee regardless of where the employee is scheduled.

## Employees can view Work Schedules and Request Time Off

You can give employees read-only access to ScheduleAnywhere so they can view and print individual or staff schedules. Employees can also be allowed to request time off online.

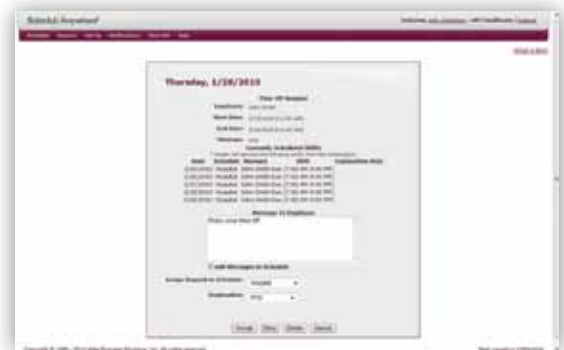

# Everything you'll need to schedule your employees online is right at your fingertips.

7-Day View

Weekly Personal Schedule View

Request Time Off
